SUGAR

Charnikow, Macdonald & Co., make the following report on the raw sugar market under date of August 13:

Our last report was dated 6th August.

The raw sugar market continues firm, with a tendency toward still higher prices. An advance of 1-32c. was recorded during the week on the sale of about 40,000 bags Cuba centrifugals at 2 1/2 c. e. f. basis 95, for September clearance, equal to 4.11c. landed; but in order to put the business through, sellers had to guarantee a polarization of not less than 95.3 at the time of shipment from Cuba. The same buyers refused other offers at the same price without this stipulation. At the close, offerings are limited to 40,000 to 50,000 bags of Cubas on the basis of 2 1/2 c. e. f. basis 96, for prompt shipment, and to Javas due here this and next month at 11s. 3d. e. l. f., equal to 4.15c. duty paid.

Shipments from Java in July with United States options were only 70,000 tons, of which about 18,000 tons have already been sold to United Kingdom, leaving only 52,000 tons available for this market. Of the June shipments, we are likely to receive here about 25,000 tons. The August exports are expected to be much less than those of last year during the same month; the present estimate is about 75,000 tons. According to these figures, the total June, July and August shipments from Java coming here will aggregate only 152,000 tons, as compared with 320,000 tons in the corresponding period last year. Further business in Javas was done with United Kingdom, the cargo by the "Clan Macdonald," which sailed on July 14th, and another one loading having been placed there at the equivalent of 4.18c. and 4.12c. respectively.

In Europe, weather conditions have become more favorable for the growing beet crop, but in spite of this, quotations advanced from last week's closing of August and September, 10s. 10 1/2d. Next crop, October-December, 10s. 1 1/2d.; January-March, 10s. 2 1/2d. to 11s. 3d. for August and September, 10s. 1 1/2d. for October-December, and 10s. 3d. for January-March, on 11th inst., today's f. o. b. prices being 11s. 2 1/2d., 11s. 1 1/2d., 10s. 1d. and 10s. 2 1/2d. for those months respectively.

The weather in Cuba continues very favorable. The crop statistics to July 31st are as follows: Exports, 1,244,983 tons; stocks, 153,449 tons; crop, 1,437,242 tons.

Refined.—After booking a satisfactory amount of business at the old basis, the Federal Sugar Refining Company is now firm at last week's advance, to 4.95c. less 1 per cent for unmaterialized. Although withdrawals have been of fairly large volume, the business has been light, but an improvement in this respect is looked for immediately refiners decide to put up their list prices.

Receipts for the week at the three Atlantic ports, 36,247 tons. Meltings, 50,000 tons.
